GET ON BOARD... AND HELP SUPPORT OUR CONTACT TRACING

As we move **beyond level 0**, we must remember that the virus has not gone away and safeguards like distancing, wearing face coverings and capturing contact details to assist Test and Protect in Scotland are all small steps we can take as individuals, to help ensure that we reduce transmission rates and keep us all safe.

Before you board the bus – we are asking that the coach party organiser captures the contact details of those travelling in the party.

This information can be vital in helping to ensure quick and efficient contact tracing and will help us to help you stay safe.
